***Report on the Audit of the Financial Statements***

***Opinions***

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Hillsdale, Michigan, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the County of Hillsdale, Michigan's basic financial statements as listed in the table of contents.

In our opinion, based on our audit and the report of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund and the aggregate remaining fund information of the County of Hillsdale, Michigan, as of December 31, 2021, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

We did not audit the financial statements of the Hillsdale County Road Commission, which represents 93 percent, 97 percent, and 87 percent, respectively, of the assets, net position, and revenue of the discretely presented component units; and the Hillsdale County Medical Care Facility, which represents 77 percent, 83 percent, and 97 percent, respectively, of the assets, net position, and revenue of the business-type activities as of December 31, 2021, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Road Commission and Medical Care Facility, are based solely on the reports of the other auditors.

***Basis for Opinions***

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of County of Hillsdale, Michigan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### ***Responsibilities of Management for the Financial Statements***

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County of Hillsdale, Michigan's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

### ***Auditor's Responsibilities for the Audit of the Financial Statements***

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedure that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of County of Hillsdale, Michigan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about County of Hillsdale, Michigan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, employee retirement and benefit systems, and budgetary comparison information on pages 4 through 7, pages 49 through 50 and pages 51 through 55 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

***Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County of Hillsdale, Michigan's basic financial statements. The combining nonmajor and component unit fund financial statements, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standard generally accepted in the United States of America by us and other auditors. In our opinion, based on our audit and the report of the other auditors, the combining nonmajor and component unit fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated June 24, 2022 on our consideration of the County of Hillsdale, Michigan's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County of Hillsdale, Michigan's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County of Hillsdale, Michigan's internal control over financial reporting and compliance.

## Management's Discussion and Analysis

### Using this Annual Report

The following discussion and analysis of the financial performance for County of Hillsdale ("County") provides an overview of the County's financial activities for the fiscal year ended December 31, 2021. Please read it in conjunction with the County's financial statements which follow this section.

### Financial Highlights

- The general fund reported a decrease in fund balance of \$167,944 from year end 2020 to 2021. This decrease is driven by an accounting change in the way tax revenue is recorded, and is offset with a prior period adjustment. With the prior period adjustment, fund balance has increased \$11,328
- General Fund Property tax revenue increased by \$523,300 in 2021 compared to 2020.
- The Medical Care Facility reported an increase in net position of \$7,950,825

### Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County of Hillsdale's basic financial statements. These statements are comprised of five components: 1) government-wide financial statements, 2) fund financial statements, 3) notes to the financial statements, 4) required supplementary information, 5) other information.

**Government-wide Financial Statements.** The government-wide financial statements are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the County of Hillsdale's assets, deferred outflows of resources, liabilities and deferred inflows of resources, with the difference between the two reported as *net position*. Over time, changes in net position may serve as a useful indicator of whether the financial position of the County of Hillsdale is improving or deteriorating.

The *statement of activities* presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities).

**Fund financial statements.** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County of Hillsdale, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. Fund financial statements report the County's operations in more detail than the government-wide financial statements. These statements present a short-term view and tell how taxpayer resources were spent during the year. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

**Governmental funds.** Most of the County's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the County's general governmental operations and the basic services it provides.

# COUNTY OF HILLSDALE, MICHIGAN

## Management's Discussion and Analysis

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *government funds* and *governmental activities*.

**Proprietary funds.** Proprietary funds are used to report the same functions presented as business-type activities in the government-wide financial statements. Internal service funds are an accounting device used to accumulate and allocate workers compensation costs internally among the County's various functions. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail.

**Fiduciary funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County of Hillsdale's own programs. The basis of accounting used for fiduciary funds is much like that used for proprietary funds.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

### Government-Wide Financial Analysis

The Statement of Net Position and the Statement of Activities report information about the County as a whole and about its activities in a way that helps explain the condition of the County. These statements include all assets and liabilities using the accrual basis of accounting. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. In a condensed format, the table below shows a comparison of the net position of the County as of the end of the current and prior year.

## Management's Discussion and Analysis

### Financial Analysis of the County's Funds

The fund financial statements provide detailed information about the most significant funds, not the County as a whole. The County board creates funds to help manage money for specific purposes as well as to show accountability for certain activities, such as special property tax millages. The County's major governmental funds for 2021 include the general fund, the senior citizens fund, and the senior center debt service fund.

The general fund pays for most of the county's governmental services. The most significant are public safety, general government, and judicial, which incurred expenditures of \$3,273,918, \$3,029,561, and \$1,721,67, respectively. Some of these services are partially supported by state and federal grants, with the remaining cost funded by general revenue sources of the general fund.

The senior citizens fund is used to account for the collection of property tax collections and disbursements for county-wide senior services pursuant to contractual arrangement.

The senior center debt service fund was used to account for principal and interest payments on the 2005 and 2015 senior center bond issues. Lease payments received from the senior center cover these bond payments.

Major proprietary funds for the year include the medical care facility fund, and the 2019 and 2020 delinquent tax revolving fund.

### Capital Asset and Debt Administration

At the end of the fiscal year 2021, the County had approximately \$17,114,035 (net of depreciation) invested in a broad range of capital assets, including land, buildings, vehicles, equipment, etc. Details of the County's capital assets are contained in the notes to the financial statements.

At December 31, 2021, debt related to capital assets of governmental activities totaled \$5,136,239. Debt related to business-type activities totaled \$6,001,705, this relates to delinquent tax notes for 2019 and 2020 as well as MCF PPP Loans.

### Economic Factors and Next Year's Budgets and Rates

The County's 2021 taxable value was a little higher than 2020 values, and due to continued construction within the county, the county should continue to see taxable value growth over the next few years. Additionally the county continues to recover from the Covid-19 pandemic, and with the introduction of the American Rescue Plan funds, the County should be able to implement some much needed updates to infrastructure and technology.

### Contacting the County's Management

This financial report is intended to provide our citizens, taxpayers, customers and investors with a general overview of the County's finances and to show the County's accountability for the money it receives. If you have questions about this report or need additional information, we welcome you to contact the County Treasurer's office or the Finance office at 33 McCollum Street, Hillsdale MI.

Fund Balances for Governmental Funds  
to Net Position of Governmental Activities  
December 31, 2021

Fund balances - total governmental funds \$ 4,244,071

Amounts reported for *governmental activities* in the statement of net position  
are different because:

Capital assets used in governmental activities are not financial resources,  
and therefore not reported in the funds.

Capital assets not being depreciated	273,495
Capital assets being depreciated, net	7,899,180

Because the focus of governmental funds is on short-term financing, some  
assets will not be available to pay for current-period expenditures. Those assets, such as  
certain receivables, are offset by deferred inflows in the governmental funds.

Long-term receivables included in deferred inflows of resources	2,171,715
---	-----------

Internal service funds are used by management to charge the costs of certain activities,  
such as insurance, to individual funds. The assets and liabilities of the internal service  
fund are included in governmental activities in the statement of net position.

Net position of governmental activities accounted for in the internal service fund	147,686
--	---------

Certain liabilities, such as bonds payable, are not due and payable in the current period,  
and therefore are not reported in the funds.

Net Changes in Fund Balances of Governmental Funds  
to Change in Net Position of Governmental Activities  
Year Ended December 31, 2021

Net change in fund balances - total governmental funds \$ (1,241,781)

Amounts reported for *governmental activities* in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital outlay	983,369
Depreciation expense	(439,044)

Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of bond principal is an expenditure in the governmental funds, but the repayment reduces long term-liabilities.

Capital lease proceeds	(77,649)
Principal payments on bonds	1,190,000
Principal payments on capital leases	77,643

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Change in the accrual of compensated absences	73
Change in the accrual of other post employment benefits	804,275
Change in Pension Obligation	165,859
Change in deferred Inflows from Pension	(570,979)
Change in deferred Outflows from Pension	370,107
Change in deferred Inflows from OPEB	(756,737)
Change in deferred Outflows from OPEB	(58,618)

Internal service funds are used by management to charge the costs of certain activities, such as insurance, to individual funds. The net revenue (expense) of the internal service fund is reported with governmental activities:

## Notes to Financial Statements

### 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Hillsdale County, Michigan (the “County” or “government”) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing U.S. governmental accounting and financial reporting principles. The more significant of the County’s accounting policies are described below.

#### Reporting Entity

As required by generally accepted accounting principles, these financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Blended component units, although legally separate entities, are, in substance, part of the government’s operations and so data from these units are combined with data of the primary government. Discretely presented component units, on the other hand, are reported in a separate column in the government-wide financial statements to emphasize that they are legally separate from the government.

#### Blended Component Unit

Hillsdale County Medical Care Facility - provides skilled long term care to residents of the County and is not considered legally separate from the County; therefore, it has been included in the County’s basic financial statements as an Enterprise Fund. The complete financial statements may be obtained by contacting:

Hillsdale County Medical Care Facility  
140 W. Mechanic Street  
Hillsdale, MI 49242  
(517) 439 9341

Hillsdale County Building Authority - is governed by a five-member board appointed by the Hillsdale County Board of Commissioners. Although it is legally separate from Hillsdale County, the Building Authority is reported as if it were part of the primary government because its sole purpose is to finance and construct the County’s public buildings.

Hillsdale Department of Public Works - Pursuant to Act 185 of 1957 (MCL 123.732, as amended) the County entered into a program of water supply and sanitary sewer facility construction. The Department of Public Works is under the general control of the County Board of Commissioners and under the immediate control of a Board of Public Works which includes the County Drain Commissioner. The Board of Public Works is considered an agency of the County. The Board manages water supply and sanitary sewer system construction projects that are bonded by the County. Bonds issued are authorized by an ordinance or a resolution approved by the Board of Public Works and adopted by the County Board of Commissioners.

#### Discretely Presented Component Units

Hillsdale County Road Commission - is established pursuant to the County Road Law (MCL 224.1), is governed by an elected three member Board of County Road Commissioners. The Road Commission may not issue debt or levy a tax without the approval of the County Board of Commissioners. If approval is granted, Road Commission taxes are levied under the taxing authority of the County, as approved by the County electors, and would be included as a part of the County total tax levy as well as reported in the County Road Fund.

The Hillsdale County Road Commission has a separately issued audit report. Complete financial statements of the component unit can be obtained from its respective administrative offices or from the Clerk’s Office:

## Notes to Financial Statements

Hillsdale County Drain Commission - Each of the Drainage Districts established pursuant to the Drain Code of 1956 are separate legal entities, with the power to contract, to sue and be sued, to hold, manage and dispose of real and personal property, etc. The statutory drainage board of Chapter 20 (MCL 280.461 et seq.) Drain Commission consists of the drain commissioners, the chairperson of the county board of commissioners, and one other member of the board of commissioners. The statutory drainage board of Chapter 5 (MCL 280.101 et seq.) and Chapter 6 (MCL 280.121 et seq.) Drain Commission consists of the State Director of Agriculture and the drain commissioners of each county involved in the project. The county drain commissioner has sole responsibility to administer the drainage district established pursuant to Chapter 3 (MCL 280.51 et seq.) and Chapter 4 (MCL 280.71 et seq.) of the Drain Code. The drainage board or drain commissioners, on behalf of the drainage district, may issue debt and levy special assessments authorized by the Drain Code without the prior approval of the county board of commissioners. The full faith and credit of the County may be given for the debt of the drainage district. There is created for each project petitioned for under the provisions of the Chapter 21 (MCL 280.511 et seq.) Drain Commission, an augmented drainage board to consist of the members of the drainage board together with the chairman of the board of commissioners and the chairman of the board of county auditors of each county involved. The statutory drainage board of Chapter 8 (MCL 280.191 et seq.) Drain Commission consists of the Drain Commissioner, the State Director of Agriculture, and the commissioners of each county involved.

### Related Organization

A related organization is a legal entity for which the government appoints a voting majority of the governing body, but for which it is not financially accountable.

LifeWays - Hillsdale County and Jackson County entered into an agreement pursuant to Section 205 of Act 258 of 1974, as amended (MCL 330.1205), to create the Jackson Hillsdale Mental Health Authority, which later became known as "LifeWays". LifeWays is a legally separate organization established to provide mental health services to residents of the counties.

It is governed by a twelve (12) member board, including four (4) from Hillsdale County and eight (8) from Jackson County. The County's accountability does not extend beyond this representation and making these appointments. The board may borrow money and issue bonds pursuant to Section 205 of Act 258 of 1974, as amended (MCL 330.1205). LifeWays indemnifies and holds harmless the participating counties from all claims and liabilities. Hillsdale County's appropriation to LifeWays for the calendar year ended December 31, 2021, was \$274,000.

Branch Hillsdale St Joseph District I Health Department - Hillsdale County participates jointly with Branch and St. Joseph Counties in the operation of the Branch, Hillsdale, St. Joseph District I Health Department. All of the financial operations of the District Health Department are recorded in the records of Branch County. It is governed by a seven (7) member board, two (2) from Hillsdale County, two (2) from Branch County, and three (3) from St. Joseph County. The funding formula approved by the members of the county boards of commissioners is based pro rata on each county's population. The current funding formula approved by the District Health Board requires Hillsdale, Branch and St. Joseph Counties to provide 30.1, 29.6, and 40.3 percent, respectively. Hillsdale County's appropriation to the District Health Department for the calendar year ended December 31, 2021, was \$249,890.

### Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

## Notes to Financial Statements

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

### *Measurement Focus, Basis of Accounting, and Financial Statement Presentation*

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Agency funds, a type of fiduciary fund, are unlike all other types of funds, reporting only assets and liabilities. Therefore, agency funds cannot be said to have a measurement focus. They do, however, use the accrual basis of accounting to recognize receivables and payables.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of the end of the current fiscal period or within one year for reimbursement-based grants. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, state shared revenues, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The County reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for all the financial resources of the general government, except those accounted for and reported in another fund.

The *senior citizens special revenue fund* is used to account for the collection of property tax and disbursements for county-wide senior services pursuant to contractual services.

The *Senior Center debt service fund* is used to account for financial resources to refund the debt of the Senior Citizens Center.

The *american rescue plan act fund* is used to account for funds received from the american rescue plan act.

The County reports the following major proprietary funds:

The medical care *facility fund* accounts for the operation of the County's long-term adult care facility.

The 2018 *delinquent tax revolving fund* accounts for the annual purchase of delinquent real property taxes from each of the local taxing units within the county, and the ultimate collection from the property owners of the delinquent taxes with penalty and interest.

Additionally, the County reports the following fund types:

*Special revenue funds* are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

*Debt service funds* are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for principal and interest.

# COUNTY OF HILLSDALE, MICHIGAN

## Notes to Financial Statements

*Capital projects funds* are used to account for and report financial resources that are restricted, committed, or assigned to expenditure for capital outlays, including the acquisition or construction of capital facilities and other capital assets.

*Permanent funds* are used to account for resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support the County's programs.

*Enterprise funds* account for those operations that are financed and operated in a manner similar to private business or where the County has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability.

*Internal service funds* account for the insurance activity of the County provided to other departments and funds on a cost reimbursement basis.

*Agency funds* are custodial in nature and do not present results of operations or have a measurement focus. Agency funds are accounted for using the modified accrual basis of accounting. These funds are used to account for assets that the government holds for others in an agency capacity.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise funds and of the County's internal service fund are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

### Assets, Liabilities and Equity

#### *Cash and Investments*

The government's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

Investments are stated at fair value and consist of commercial paper and certificates of deposit with original maturities of greater than 90 days.

State statutes authorize the County to deposit in the accounts of federally insured banks, credit unions and savings and loan associations and to invest in obligations of the U.S. Treasury, certain commercial paper, repurchase agreements, bankers acceptances, and mutual funds composed of otherwise legal investments.

#### *Receivables and Payables*

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the year are referred to as "interfund receivables/payable". Any residual balances outstanding between governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

Receivables consist of accounts receivable related to charges for services and amounts due from governmental units for various financial assistance programs and State shared revenues. The County has established allowances for doubtful accounts to estimate uncollectible accounts receivable in the child care, health and rehabilitation services facility funds and district health department component unit. The County utilizes the direct write-off method for all other funds as past experience indicates the write-off of accounts receivable for these funds are immaterial and do not warrant the use of allowance accounts.

# COUNTY OF HILLSDALE, MICHIGAN

## Notes to Financial Statements

Advances between funds or component units are offset by a fund balance reserve account in applicable governmental funds to indicate they are not available for appropriation and are not expendable available financial resources.

### *Inventories*

The cost of inventory items in the primary government for all funds is recorded as an expenditure at the time of purchase. Inventories of the health and rehabilitation services facility and jail commissary funds consist of medical supplies and miscellaneous hygiene and consumer products, respectively, which are stated at the lower of first-in, first-out (FIFO) or market.

### *Prepays*

Certain payments to vendors (particularly for insurance coverage) reflect costs that are applicable to a future period and are recorded as prepaid items.

### *Capital Assets*

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation. Infrastructure for the Road Commission and Drain Commission component units has been capitalized back to 1980.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business type activities, if any, is included as part of the capitalized value of the assets constructed. No such interest expense was incurred during the current fiscal year.

Capital assets of the primary government and Drain Commission component unit are depreciated using the straight-line method over the following estimated useful lives:

	Years
Building and improvements	10-50
Equipment	10-25
Vehicles	5-10
Infrastructure - drains	50

Capital assets of the Road Commission component unit are depreciated as follows:

	Years
Buildings and improvements	40
Equipment	4-8
Infrastructure	8-50

### *Compensated Absences*

In accordance with County personnel policies and/or contracts negotiated with the various employee groups of the County, upon termination of employment, individual employees have vested rights to receive payment or unused vacation and sick leave under formulas and conditions specified in the respective personnel policies and/or contracts. Vacation pay that has matured, such as due to employee resignations or retirements, is reported as an expenditure and a fund liability of the governmental fund that will pay it for employees retiring.

## Notes to Financial Statements

### *Pensions*

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pension, and pension expense, information about the fiduciary net position of the Pension Plan and additions to/deductions from the fiduciary net position have been determined on the same basis as they are reported by MERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

### *Long-term Obligations*

In the government wide financial statements and proprietary fund types in the fund financial statements, long term debt and other long term obligations are reported as liabilities in the applicable governmental activities, business type activities, or proprietary fund type statement of net assets. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

### *Deferred inflows of resources*

In addition to liabilities, the statement of net position and governmental funds balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time. The government has two types of items that qualify for reporting in this category. The governmental funds report unavailable revenues, which arises only under a modified accrual basis of accounting. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. In addition, deferred inflows of resources are reported in the government-wide and governmental fund financial statements for property taxes levied during the year that were intended to finance future periods.

### *Fund Equity*

Governmental funds report nonspendable fund balance for amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. Restricted fund balance is reported when externally imposed constraints are placed on the use of resources by grantors, contributors, or laws or regulations of other governments. Committed fund balance is reported for amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, the County Commissioners. A formal resolution of the County Commissioners is required to establish, modify, or rescind a fund balance commitment.

The County Commissioners can also give authority to management to assign fund balance but has not yet done so; assigned fund balances are neither restricted nor committed. Unassigned fund balance is the residual classification for the general fund.

When the government incurs expenditures for purposes for which various fund balances classifications can be used, it is the government's policy to use restricted fund balance first, then committed, assigned and finally unassigned fund balance.

### *Use of Estimates*

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the reporting period. Actual results could differ from those estimates.

### 2. BUDGETARY INFORMATION

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the general and special revenue funds. All annual appropriations lapse at year-end.

The Finance Committee receives the preliminary budget requests from departmental heads in September. A proposed operating budget for the fiscal year beginning the following January 1 is submitted to the Board of Commissioners in October. Public hearings are conducted to obtain taxpayer comments. The budget is formally adopted by resolution at the December Board of Commissioners' meeting. Any revisions to the budget must be approved by the Board of Commissioners. Formal budgetary integration is employed as a management control device for the General and Special Revenue Funds. Budgeted amounts are as originally adopted or as amended by the Board of Commissioners during the year.

The legal level of budgetary control is the activity level for the General Fund and the function level for the special revenue funds. The Board of Commissioners made several supplemental budgetary appropriations during the year which were not considered material.

Encumbrance accounting is not employed by the County because it is presently considered unnecessary to reasonably assure budgetary control.

### 3. CASH AND INVESTMENTS

#### County's Cash and Investment Pool

*Interest Rate Risk.* State law limits the allowable investments and the maturities of some of the allowable investments as identified in the list of authorized investments above. The County's investment policy does not have specific limits in excess of state law on investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. At year end, maturities of the County's debt securities were as follows:

	Total Fair	Investment Maturities (fair value by years)			
		Less than 1	1-5	6-10	More than 10
U.S. Agencies	246,858	-	246,858	-	-

## Notes to Financial Statements

*Custodial Credit Risk - Deposits.* For deposits, custodial credit risk is the risk, that in the event of a bank failure, the County’s deposits may not be returned to the government. As of December 31, 2021, \$3,466,267 of the County’s total balance of \$24,671,010 is exposed to custodial credit risk as it was uninsured and uncollateralized.

The County’s investment policy requires that only those banks or savings and loan institutions that are members of the FDIC or FSLIC will be considered for depository purposes, but recognizes that it is impractical to insure all bank deposits due to the limitations of depository insurance. As a result, the County evaluates each financial institution with which it deposits funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

*Custodial Credit Risk - Investments.* Following is a summary of the Treasurer’s investment pool holdings as of December 31, 2021:

U.S. agencies	\$	246,858
Michigan municipal bonds and notes		8,585,136
Certificates of Deposit		1,107,363
Money market funds		14,731,653
<b>Total</b>	<b>\$</b>	<b>24,671,010</b>

Investments are exposed to custodial credit risk if the securities are uninsured, unregistered or held by a counterparty or its agent but not in the government’s name. In accordance with the County’s investment policy, all investments are held in the name of the County and are evidenced by a safekeeping receipt confirmation, and thus not exposed to custodial credit risk.

*Credit Risk.* As of December 31, 2021, all of the County’s investments in securities of U.S. agencies were rated AAA by Standard & Poor’s (S&P). All of the County’s investments in money market funds are rated AAA by S&P. The County’s investment in Michigan municipal bonds and notes are rated in the top tier by at least one rating agency.

*Concentration of Credit Risk.* State law limits allowable investments but does not limit concentration of credit risk as identified in the list of authorized investments above. The County’s investment policy does not have specific limits in excess of state law on concentration of credit risk. All investments held at year- end are reported above.

*Fair value measurement.* The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using the net asset value per share (or equivalent) as a practical expedient are not classified in the fair value hierarchy below.

In instances where inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the measurements required judgement and considers factors specific to each asset or liability.

The County has the following fair value measurements as of December 31, 2021:

	Total	Level 1	Level 2	Level 3
Municipal Bonds	\$ 8,585,136	\$ 8,585,136	\$ -	\$ -

### 9. LONG-TERM DEBT

**General obligation bonds.** The government issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds are direct obligations and pledge the full faith and credit of the County. These bonds are typically issued as 10-20 year serial bonds with varying amounts of principal maturing each year. General obligation bonds currently outstanding are as follows:

Purpose	Interest Rates	Maturity Date	Amount of Original Issue	Amount Outstanding
<b>Governmental activities</b>				
2015 Cap. Impr. Sr Ctr. Refunding	.70%-2.70%	2025	\$ 2,140,000	\$ 580,000

2015 Senior Center Capital Debt	.75%-2.45%	2023	1,300,000	355,000
				<u>\$ 4,400,000</u>

Annual debt service requirements to maturity for general obligation bonds are as follows:

Year Ending December 31,	Governmental Activities	
	Principal	Interest
2022	920,000	113,136
2023	955,000	89,761

2027-2028	135,000	4,305
	<u>\$ 4,400,000</u>	<u>\$ 337,754</u>

By statute, the government's legal debt limit is restricted to 10% of the equalized value of property in the County. At December 31, 2021, the County's legal debt limit was \$218,977,329

**Installment obligations.** The government has entered into several long-term installment payment agreements for the upgrade of its facilities and software. Installment obligations currently outstanding are as follows:

COUNTY OF HILLSDALE, MICHIGAN

2026	45,000	968
	<u>\$ 660,000</u>	<u>\$ 18,059</u>

Capital lease. The government has entered into several lease agreements for financing the acquisition of vehicles. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future minimum lease payments as of the inception date. The future minimum lease obligations and the net present value of these minimum lease payments as of December 31, 2021 were as follows:

Year Ending December 31,	Governmental Activities
2022	\$ 51,692
2023	<u>24,546</u>
Total minimum lease payments	76,238
Less amount representing interest	<u>(5,604)</u>
Present value of minimum lease payments	<u>\$ 70,634</u>

*Delinquent tax notes.* The government issues general obligation limited tax notes to finance the purchase of delinquent real property taxes receivable from each taxing district in the County. These notes are reported in the proprietary funds (i.e., delinquent tax revolving enterprise fund) as they are expected to be repaid from proprietary fund revenues. Principal and interest payments are predicated upon actual collections of delinquent property taxes, which are subject to collection over a period not to exceed three years. Delinquent tax notes outstanding at December 31, 2021, are as follows:

Purpose	Interest Rates	Maturity Date	Amount of Original Issue	Amount Outstanding
<b>Business-type activities</b>				
2018 Delinquent Tax Revolving Notes	2.0%-2.4%	2021	\$ 2,700,000	\$ -

## 10. RISK MANAGEMENT / SELF-INSURANCE PROGRAMS

The County is exposed to various risks of loss related to property loss, torts, errors and omissions, employee injuries (workers' compensation), as well as medical benefits provided to employees. The County has purchased commercial insurance for employee medical benefit claims, participates in the Michigan Municipal Risk Management Authority (risk pool) for claims relating to property loss, torts, errors and omissions, and personal injuries, and participates in a risk pool at Employer's Reinsurance Corporation for claims relating to workers' compensation. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

The Michigan Municipal Risk Management Authority (risk pool) program operates as a claims servicing pool for amounts up to member retention limits, and operates as a common risk sharing management program for losses in excess of member retention amounts. Although premiums are paid annually to the Authority, and the Authority uses the premiums to pay claims up to the retention limits, the ultimate liability for those claims remains with the County. As of December 31, 2021, the County estimates that its funds on deposit with the Authority are sufficient to cover any outstanding claims. Accordingly, no liability has been recorded.

*Workers' Compensation.* The government maintains a self insurance program for workers' compensation coverage which is accounted for in an internal service fund (i.e., the Self Insurance fund). The program is administered by a third party administrator who conducts safety inspections and provides claims review and processing services. Premiums are paid into the internal service fund by all other funds based on payrolls and job classifications and are available to pay claims, claim reserves, excess coverage and administrative costs.

Liabilities are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. An excess coverage insurance policy covers individual claims in excess of \$500,000 subject to an annual aggregate limit of \$5,000,000. Liabilities include an amount for claims that have been incurred but not reported (IBNR). Changes in the balances of claims liabilities during the past two years are as follows:

Changes in the balances of estimated liabilities during the past two years are as follows:

	2021	2020
<b>Workers compensation</b>

<b>Estimated liability, December 31</b>	<u>\$ 106,751</u>	<u>\$ 212,046</u>

*Road Commission.* The Road Commission is a member of the Michigan County Road Commission Self-Insurance Pool ("Pool") established pursuant to the laws of the State of Michigan which authorizes contracts between municipal corporations (interlocal agreements) to form group self-insurance pools, and to prescribe conditions to the performance of these contracts.

# COUNTY OF HILLSDALE, MICHIGAN

## Notes to Financial Statements

The Michigan County Road Commission Self-Insurance Pool was established for the purpose of making a self-insurance pooling program available for Michigan County Road Commissions, which includes, but is not limited to, general liability coverages, auto liability coverages, property insurance coverages, stop loss insurance protection, claims administration, and risk management and loss control services pursuant to Michigan Public Act 138 of 1982.

The Hillsdale County Road Commission pays an annual premium to the Pool for property (buildings and grounds) coverage, automobile liability, errors or omissions liability and bodily injury, property damage and personal injury liability. The agreement for the formation of the Pool provides that the Pool will be self-sustaining through member premiums and will purchase both specific and aggregate stop-loss insurance to the limits determined necessary by the Pool Board.

The Road Commission continues to carry commercial insurance for all other risks of loss, including life, health, and workers' compensation insurance. Settled claims have not exceeded insurance coverage for the last three years

### 11. CONTINGENT LIABILITIES

Amounts received or receivable from grantor agencies are subject to audit and potential adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the County expects such amounts, if any, to be immaterial.

The County is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the County's counsel that resolution of these matters will not have a material adverse effect on the financial condition of the County.

LifeWays. The Michigan Department of Community Health (MDCH) has indicated that the County is partially responsible for \$3,299,285 owed to Lifeways, the mental health authority for Jackson and Hillsdale Counties. Hillsdale County has entered into agreement to pay \$80,000 per year for 10 years to account for their portion of the \$3,299,285 owed to Lifeways. The first payment was in the 2015 fiscal year.

### 12. PROPERTY TAXES

County General Fund property taxes are levied on July 1 of each year (the lien date) and are due in full by September 14, though they do not become delinquent until March 1 of the following year. For levies other than the General Fund, the lien date is December 1.

Property taxes are levied on the assessed taxable value of the property as established by local units, accepted by the County and equalized under State statute at approximately 50 percent of the current estimated market value. In March 1994, Michigan voters approved Proposal A, which limits annual increases in assessed values to the lesser of 5% or the rate of inflation with assessed value reverting to 50% of true cash value when the property is sold.

For the ambulance, senior services and Medical Care Facility, the assessed and taxable value of real and personal property for the December 1, 2020 levy, for which revenue was recognized in fiscal 2021, was \$1,411,505,455. For the general fund, the assessed and taxable value of real and personal property for the July 1, 2021 levy, for which revenue was recognized in fiscal 2021, was \$1,526,210,983. The general operating tax rate for this levy was at the maximum rate of 4.8879 mills, as adjusted by the Headlee Amendment to the State of Michigan Constitution. The County also had a voter approved tax of .9941 mills for ambulance services, .9904 mills for senior services, .5965 for Medical Care Facility operating, .4971 for Mental Health, and .4000 mills for the Medical Care Facility debt service.

By agreement with various taxing authorities, the County purchases at face value the real property taxes returned delinquent each March 1 and records a corresponding delinquent taxes receivable.

### 13. DEFINED BENEFIT PENSION PLANS - Primary Government

Employees of the Sheriff Department, except the Sheriff and Under sheriff, are eligible to participate in the Municipal Employees Retirement System of Michigan (MERS), an agent multiple-employer, defined benefit pension plan. The System is administered by the MERS retirement board. MERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Act No. 427 of the Public Acts of 1984, as amended, establishes and amends the benefit provisions of the participants in MERS. A publicly available financial report that includes financial statements and required supplementary information for MERS may be obtained by writing to the Municipal Employees Retirement System of Michigan, 1134 Municipal Way, Lansing, MI 48917, or by calling (800) 767-6377.

The County is required to contribute at an actuarially determined rate; the current rate for the County is 10% of annual covered payroll for each employee group. All participating employees are required to contribute 14.40% percent of their annual salary. The contribution requirements of the County are established and may be amended by the Retirement Board of MERS. The contribution requirements of plan members are established and may be amended by the County Board of Commissioners, depending on the MERS contribution program adopted by the County. However, if the MERS funding requirement for the employer's portion exceeds the amount per the labor contracts then the employees are required to fund the difference.

**Actuarial Assumptions.** The total pension liability in the December 31, 2021 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5 Percent
Salary Increases	3.00 percent, average, including inflation
Investment rate of return	7.35 percent

# COUNTY OF HILLSDALE, MICHIGAN

## Notes to Financial Statements

Although no explicit price inflation assumption is used in this valuation, the long-term annual rate of price inflation implicit in the 3.00% base wage inflation is 2.5%.

The mortality table used to project the mortality experience of non-disabled plan members is a 50% Male - 50% female blend of the following tables:

1. 106% of Pub-2010 Juvenile Mortality Tables for ages 0-17
2. 106% of Pub-2010 Employee Mortality Tables for ages 18-49
3. 106% of Pub-2010 Healthy Retiree Tables for ages 50-120

The actuarial assumptions used in valuation were based on the results of the most recent actuarial experience study in 2020.

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment and administrative expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Equity	60.0%	2.97%
Global Fixed Income	20.0%	0.48%
Private Investment	20.0%	1.40%

Discount Rate. The discount rate used to measure the total pension liability is 7.6%. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employers. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Annual Pension Cost

During the year ended December 31, 2021, the County's contributions totaling \$184,320 were made in accordance with contribution requirement determined by an actuarial valuation of the plan as of December 31, 2020. The employer contribution rate has been determined based on the entry age normal funding method. Under the entry age normal cost funding method, the total employer contribution is comprised of the normal cost plus the level annual percentage of payroll payment required to normal cost is, for each employee, the level percentage of payroll contribution (from entry age to retirement) required to accumulate sufficient assets at the member's retirement to pay for his projected benefit. Significant actuarial assumptions used include a long-term investment yield rate of 7.35 percent and annual salary increases of 3.0 percent based on an age-related scale to reflect merit, longevity, and promotional salary increases. The unfunded actuarial liability is amortized as a level percent of payroll on a closed basis. The remaining amortization period is 19 years.

### 14. DEFINED BENEFIT PENSION PLANS - Road Commission

*General Information About the Plan*

*Plan Description.* The Road Commission participates in the Municipal Employees' Retirement System (MERS) of Michigan, a defined benefit pension plan providing certain retirement, disability and death benefits to plan members and beneficiaries. MERS is an agent multiple-employer, statewide public employee pension plan established by the Michigan Legislature under Public Act 135 of 1945 and administered by a nine member Retirement Board. Public Act 427 of 1984, as amended, establishes and amends the benefit provisions of the participants in MERS. MERS issues a publicly available financial report that includes financial statements and required supplementary information. This report may be obtained accessing the MERS website at [www.mersofmich.com](http://www.mersofmich.com).

*Benefits Provided.* Pension benefits are calculated as final average compensation (based on a 5 year period) and multiplier of 2%. Participants are considered to be fully vested in the plan after 6 years. Normal retirement age is 60 with early retirement at age 55 with 25 years of service.

*Employees Covered by Benefit Terms.* At December 31, 2020, plan membership consisted of the following:

Inactive employees or beneficiaries currently receiving benefits	43
Inactive employees entitled to but not yet receiving benefits	6
Active employees	44
<b>Total membership</b>	<b>93</b>

*Contributions.* The employer is required to contribute amounts at least equal to the actuarially determined rate, as established by the MERS Retirement Board. The actuarially determined rate is the estimated amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. In addition, the employer may establish contribution rates to be paid by its covered employees.

Employer and employee contribution amounts or rates, by division/bargaining unit, were as follows for the year ended December 31, 2021:

Division/Bargaining Unit	Employer Contribution	Employee Contribution	Status
01 - General	\$17,471/Month	5.3%	Open
10 - Non Union	\$20,304/Month	9.9%	Open

*Net Pension Liability.* The Road Commission's net pension liability was measured as of December 31, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2020.

*Actuarial Assumptions.* The total pension liability in the December 31, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.5%
Salary increases	3.00% in the long-term
Investment rate of return	7.35%, net of investment expense and including inflation

# COUNTY OF HILLSDALE, MICHIGAN

## Notes to Financial Statements

The base mortality tables used are constructed as described below and are based on amount weighted sex distinct rates:

- Pre-retirement mortality based on 100% of Pub-2010 Juvenile Mortality Tables for ages 0-17, 100% of PubG-2010 Employee Mortality Tables for ages 18-80, and 100% of PubG-2010 Healthy Retiree Tables for ages 81-120
- Non-disabled mortality based on 106% of Pub-2010 Juvenile Mortality Tables for ages 0-17, 106% of PubG-2010 Employee Mortality Tables for ages 18-80, and 106% of PubG-2010 Healthy Retiree Tables for ages 81-120
- Disabled retired plan members mortality based on 100% of Pub-2010 Juvenile Mortality Tables for ages 0-17, and 100% of PubNS-2010 Healthy Retiree Tables for ages 81-120

The actuarial assumptions used in the valuation were based on the results of the most recent actuarial experience study of 2014-2018.

The long-term expected rate of return on pension plan investments was determined using a model method in which the best-estimate ranges of expected future real rates of return (expected returns, net of investment and administrative expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return	Expected Money- Weighted Rate of Return
Global equity	60.00%	5.25%	3.15%
Global fixed income	20.00%	1.25%	0.25%
Private Investments	20.00%	7.25%	1.45%
	<u>100.00%</u>		
Inflation			2.50%
Administrative expenses netted above			<u>0.25%</u>
<b>Investment rate of return</b>			<u><u>7.60%</u></u>

*Discount Rate.* The discount rate used to measure the total pension liability as of December 31, 2021 was 7.60%. The projection of cash flows used to determine the discount rate assumes that employer and employee contributions will be made at the rates agreed upon for employees and the actuarially determined rates for employers. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to pay all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

In addition to changes to the economic assumptions which took effect with the fiscal year 2021 contribution rates, the experience study recommended updated demographic assumptions, including adjustments to the following actuarial assumptions: mortality, retirement, disability, and termination rates.

*Sensitivity of the Net Pension Liability to Changes in the Discount Rate.* The following presents the net pension liability of the Road Commission, calculated using the discount rate of 7.60%, as well as what the Road Commission's net pension liability would be if it were calculated using a discount rate that is 1% lower (6.60%) or 1% higher (8.60%) than the current rate:

*Payable to the Pension Plan.* At December 31, 2021, the Road Commission had no amounts payable for contributions to the pension plan.

For the government activities, the net pension liability is generally liquidated by the general fund.

**15. DEFINED CONTRIBUTION PENSION PLAN - PRIMARY GOVERNMENT**

The County provides pension benefits to all of its full time employees who are not eligible for the MERS defined benefit plan through a defined contribution plan. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. As established by the Hillsdale County Retirement Fund, the County contributes 6.5 - 10.0 percent for all the general County employees' gross earnings and 4 percent for all Medical Care Facility employees. Employees contribute 2-10 percent of earnings. In accordance with these requirements, the County contributed \$317,380 for the year ended December 31, 2021 and employees contributed \$251,754.

The Hillsdale County Board of Commissioners established both plans and may amend them and the related contribution requirements, subject to the County's various collective bargaining agreements. The plans are administered and the assets are in the custody of third-party insurance companies.

### 16. POST EMPLOYMENT HEALTH CARE BENEFITS - PRIMARY GOVERNMENT

Plan Description. The Hillsdale County Sheriff's Department participates in a defined benefit postretirement plan sponsored by Hillsdale County that provides postretirement medical benefits to retirees. Substantially all employees may become eligible for the benefits if they reach normal retirement age while working at the Sheriff's department. The County is required to pay 50% of the post retirement obligation to be paid from the County's General Fund, until the retiree reaches the age of 65, at which point the retiree is eligible for Medicare, and the county's obligation ends.

Funding Policy. Through 2021, the County has not made contributions in advance (in other words, this has been financed on a pay as you go basis). In 2022, the county will open a Trust, and begin funding the normal cost on an annual basis. Covered members are required to contribute 50% of their health insurance cost each month.

Employees Covered by Benefit Terms.

Total OPEB Liability and Net OPEB Liability.

The County's total OPEB liability of \$1,199,950 was measured as of December 31, 2021.

The County has contributed zero funds towards funding this liability as the County has used a pay-as-you-go approach to their OPEB costs. That is, benefit payments have been made from general operating funds.

Actuarial Methods

Cost Method	Entry Age Normal (level percentage of compensation)
Asset Valuation Method	Not Applicable; plan is not pre-funded

Actuarial assumptions and other inputs.

Inflation	None; the plan is not pre-funded
Salary Increases	3% (for purpose of allocating liability)
Investment rate of return	None; Plan is not pre-funded
20-year Aa Municipal bond rate	2.25% (S&P Municipal Bond 20-Year High Grade Rate Index)
Mortality	2010 Public General Employees and Healthy Retirees, Headcount weighted
Improvement Scale	MP-2021

Discount Rate

The discount rate used to measure the total OPEB liability was 2.25%. Because the plan does not have a dedicated OPEB trust, there are not assets projected to be sufficient to make projected future benefit payments of current plan members, therefore, benefit payments are discounted at a discount rate reflecting a 20-year AA/Aa tax-exempt municipal bond yield. As of December 31, 2020 the discount rate used to value OPEB liabilities was 1.93%.

## Reconciliation

Fund Balances for Governmental Funds  
To Net Position of Governmental Activities  
Drain Commission Component Unit  
December 31, 2021

<b>Fund balances - governmental funds</b>	\$ 811,815
Amounts reported for <i>governmental activities</i> in the statement of net position are different because:	
Internal service funds are used by management to charge the costs of certain activities, for equipment usage, to individual funds. The assets and liabilities of the internal service fund are included in governmental activities in the statement of net position.	
Net position of governmental activities accounted for in the internal service fund	913,324
Long-term liability used in governmental activities are not financial resources and therefore are not reported in funds.	(1,416,508)
Other long-term assets are not available to pay current year expenditures and, therefore, are not recorded in the funds.	
Deferred inflows on long-term special assessments receivable	<u>576,111</u>
<b>Net position of governmental activities</b>	<u><u>\$ 884,742</u></u>

## Statement of Net Position / Governmental Funds Balance Sheet

Drain Commission Component Unit  
Reconciliation of the Statement of Revenues, Expenditures  
and Changes in Fund Balance to the Statement of Activities  
Year Ended December 31, 2021

Net change in fund balance - Governmental funds	\$ 201,013
Amounts reported for <i>governmental activities</i> in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.	
Deduct - depreciation expense	
Add - capital assets purchased	(753,340)
Internal service funds are used by management to charge the costs of certain activities, such as equipment purchases, to individual funds. The net revenue (expense) of the internal service fund is reported with governmental activities:	
Net operating loss from governmental activities accounted for in the internal service fund	<u>197,720</u>
<b>Change in net position of governmental activities</b>	<u><u>\$ (354,607)</u></u>

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL  
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN  
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE  
WITH GOVERNMENT AUDITING STANDARDS**

Members of the Board  
County of Hillsdale, Michigan  
Courthouse, 29 N. Howell Street  
Hillsdale, Michigan 49242

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the County of Hillsdale, Michigan, as of and for the year ended December 31, 2021, and the related notes to the financial statements, which collectively comprise the County of Hillsdale, Michigan's basic financial statements and have issued our report thereon dated June 24, 2022. Our report includes a reference to other auditors who audited the financial statements of the Hillsdale County Road Commission and Medical Care Facility as described in our report on the County of Hillsdale, Michigan's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

**Report on Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the County of Hillsdale, Michigan's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County of Hillsdale, Michigan's internal control. Accordingly, we do not express an opinion on the effectiveness of the County of Hillsdale, Michigan's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the County of Hillsdale's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
